## OSINT Shadows Conference 2026

**26 MARCH 2026** ONSITE CONFERENCE, CIC WARSAW  
**27 MARCH 2026** CTF, ONLINE

OSINT Shadows is the first event in Poland entirely devoted to Open Source Intelligence. The popularity and importance of OSINT have been growing rapidly in recent years, but until now there has been no conference fully dedicated to this topic. OSINT Shadows fills this gap by bringing together experts, practitioners, and enthusiasts and by creating a space for the exchange of knowledge, experiences, and best practices.

### The Conference will gather:

Practitioners/Researchers/OSINT Analysts, Cybersecurity specialists, analysts, and managers, Representatives of uniformed services (Army, Police, Border Guard), Prosecutors and representatives of the judiciary, Special services and intelligence agency employees, Private detectives and detective agency employees, Representatives of debt collection and recruitment companies, Entrepreneurs who want to operate with the best available knowledge about the market and competition

**Planned number of participants** 150-200 participants

WARSAW

## Data & AI Warsaw Tech Summit 2026 formerly BIG DATA TECHNOLOGY WARSAW SUMMIT

**21 APRIL 2026** ONSITE CONFERENCE /CONFERENCE CENTER LEGIA WARSAW  
**22 APRIL 2026** ONLINE WORKSHOPS

Join 12<sup>th</sup> edition of conference Data&AI Warsaw Tech Summit – top data, analytics, and AI professionals, available both online and in-person, to explore the latest in modern data architecture, real-time analytics, generative AI and machine learning in production.

Learn how leading organizations are building scalable data platforms, automating workflows with AI, deploying ML at scale, and aligning data strategies with business goals. Sessions cover topics like platform engineering, governance, data privacy, visualization and real-world use cases across industries.

This year agenda is build on our strong foundations in data and expanding into the new frontier of AI-native systems. It is designed to inspire both data professionals and AI innovators, combining depth in engineering with forward-looking applications of AI.

### The conference will gather

database administrators, architects and developers, data engineers and analysts, product owners and IT managers – from companies that use and develop data driven solutions.

**Planned number of participants** 400-500 participants

## CyberGOV 2026

**20 MAY 2026** ONSITE CONFERENCE HOTEL SOUNDGARDEN, WARSAW  
**21 MAY 2026** ONSITE & ONLINE WORKSHOPS

The 12<sup>th</sup> edition of the conference devoted to cybersecurity in the public sector, combining real threats, legal requirements, and practical solutions for government and local government administration. The program includes presentations by experts and key officials, the exchange of best practices, and workshops, creating a forum for dialogue between key institutions.

### The conference will gather

representatives of the public sector - from municipal offices, through cities, powiat, marshal and voivodeship offices, to central offices, government agencies and ministries - in particular persons responsible for IT security and information security in these institutions and audit related to these areas.

**Planned number of participants** 400–500 participants

## CDO Forum 2026

**10 JUNE 2026** ONSITE CONFERENCE, WARSAW PRESIDENTIAL HOTEL, WARSAW  
**11 JUNE 2026** ONLINE WORKSHOPS

### Data: the foundation of digital transformation

For the 13<sup>th</sup> time, data professionals will meet: Chief Data Officers, but also heads of analytics and data departments in organizations. As every year, participants will receive a set of specific and up-to-date knowledge on how to create a data-oriented organization and make optimal business decisions based on this data. There will be no shortage of topics related to artificial intelligence, but mainly in the context of ensuring an adequate amount of quality data in such projects.

### 3rd edition of the CDO FORUM AWARDS

The competition is an excellent opportunity to recognize special achievements in the field of data utilization by organizations. Its aim is to promote the most effective projects and initiatives clearly related to the area of data, whose effects have been spectacular for organizations and can be a valuable source of inspiration for other entities on the market.

### The conference will gather

Chief Data Officers or those functionally fulfilling the role of CDO, managers from technology, business and innovation/strategy departments in large data-intensive organisations, CIOs and IT directors, as well as those responsible for the areas of data analysis and data-driven value and product building in HR, finance, sales, customer service and marketing.

**Planned number of participants** 250–300 participants

WARSAW

## CSO Council 10th Anniversary and 5th edition of the RISING STAR in CYBERSECURITY Competition

**JUNE 24, 2026**  
WARSAW

This is a unique culmination of milestone anniversaries – a true celebration of Polish cybersecurity! We have decided to combine the decade of the CSO Council community with the five-year anniversary of the Rising Star in Cybersecurity Competition – we invite you to co-create this special evening, the most important gathering of the entire cybersecurity industry in 2026!

An integral part of the celebrations will also be the publication of the „Report of the Decade” – a report prepared by the editorial team for this special anniversary, based on conversations and dialogue with the community, as well as a study illustrating the condition of the cybersecurity community in Poland – its needs and forms of cooperation.

AUGUST  
2026

WISLA

## KSC Forum 2026

**26-28 AUGUST 2026**  
ONSITE CONFERENCE, HOTEL CRYSTAL MOUNTAIN, WISLA

The 8th edition of the conference focused strictly on meeting the requirements of the KSC Act at the level of a given enterprise and institution. The conference is to cover a wide range of topics related to the Act on the National Cybersecurity System – from legal issues, through the implementation process, cooperation, SOC building, cooperation between enterprises, the context of regulations and accompanying regulatory acts.

### The conference will gather

CSO, CISO, Security / IT Directors, IT auditors from companies that are operators of critical services from the utilities sector and the largest industrial plants, as well as representatives of public administration institutions.

**Planned number of participants** 200–300 participants

## AI Summit Poland 2026

**8 OCTOBER 2026** ONSITE CONFERENCE / CONFERENCE CENTER LEGIA WARSAW  
**9 OCTOBER 2026** ONLINE WORKSHOPS

The 3<sup>rd</sup> edition of the AI Summit Poland conference will be a meeting place for the entire AI market in Poland. We need better cooperation at the national level, improvement of competences and exponential growth of implementations in Polish organisations. Our conference aims to help bring us closer to achieving these goals - combining the business perspective of AI with its technological foundation. The conference will bring together, on the one hand, professionals and experts dealing with the solutions of AI and ML (within 3 thematic tracks), on the other hand, representatives and managers of digitizing companies and state institutions open to innovation (within 2 tracks).

### The conference will gather

all practitioners - Data Scientists, Software Developers, Machine Learning Experts, DevOps Engineers, and Managers who want to implement AI solutions into their companies.

**Planned number of participants** 300-500 participants

## MED SMART SCIENCE FORUM 2026

**28 OCTOBER 2026** CIC WARSAW  
**29 OCTOBER 2026** ONLINE WORKSHOPS

Med Smart Science Forum is a new event at the crossroads of medicine, technology, and science. Its goal is to strengthen dialogue around the effective use of data in the areas of health, diagnostics, and research. Digital Medicine Centers are gigantic data repositories that need to be effectively managed and used to create unique data exchange solutions - in Poland and in Europe. It is a space for inspiration, partnerships, and real-world implementations - which will form the core of the Med Science Forum conference.

### The conference will gather

The conference will bring together members of the Digital Medicine Center, researchers from universities and research institutes, experts in data analysis and artificial intelligence in medicine, representatives of hospitals, clinics, laboratories, and research organizations, leaders of digital transformation in healthcare, representatives of technology companies (vendors), managers, stakeholders and decision-makers from the public and private healthcare sectors, as well as representatives of companies from the pharmaceutical and MedTech industries.

## OUR COMMUNITIES

JOIN THE COMMUNITY: **CSO COUNCIL,**  
**CYBER WOMEN, CDO FORUM CLUB**

### CSO COUNCIL

**CSO COUNCIL IS A COMMUNITY OF INFORMATION SECURITY DIRECTORS  
- CREATED BY ISSA POLAND AND EVENTION**

The task of the CSO Council is to integrate the environment, build a platform for the exchange of knowledge and experience as well as networking among the heads of Information Security and Cybersecurity in large companies and institutions operating in Poland. The CSO Council carries out its activities through scheduled regular meetings and other forms promoting the integration of the environment.

### Data & AI Leaders

**DATA & AI LEADERS IS A COMMUNITY OF MANAGERS DEALING WITH DATA, ANALYTICS AND ARTIFICIAL INTELLIGENCE IN LARGE ORGANISATIONS. IT IS A CONTINUATION OF THE CDO FORUM CLUB COMMUNITY, WHICH WE HAVE BEEN DEVELOPING FOR YEARS AND WHOSE FORMULA IS EVOLVING - JUST AS THE ROLE OF PEOPLE DEALING WITH DATA IS CHANGING.**

High-quality data is the foundation of digital transformation - it enables the creation of valuable analyses, better decisionmaking, and the development of big data and AI solutions. It is precisely the tasks related to building competencies in the area of advanced analytics, prediction and artificial intelligence that often fall to data departments, changing the scope of their competencies and thus posing new challenges for managers.

Data & AI Leaders is a space for discussion, networking and collaboration. We invite managers who shape the approach to data management, analytics and the use of AI in business to meetings where they share their knowledge and experiences. Data & AI Leaders is a community of leaders driving digital transformation in business organisations and in administration.

## ABOUT US

Evention is a company with an 11-year history, known for creating knowledge sharing and community development programs (by organizing regular meetings and conferences) for directors, managers and experts responsible for the areas of technology, security and digitization. Evention has been implementing market-recognized industry conferences (including DATA&AI TECH WARSAW SUMMIT, CYBERGOV, KSC FORUM, ADVANCED THREAT SUMMIT, CDO FORUM, AI POLAND SUMMIT), periodic community meetings dedicated to managers (CSO COUNCIL and CDO FORUM CLUB) and special publications (reports, research projects).

We do exceptional and unique things at Evention – and we are a leader in our market area. This is confirmed by the honors and awards we have won: Forbes Diamonds 2024 and 2025, and Gazeli Biznesu 2023. These are prestigious rankings showing the most dynamically developing SME companies, ready to meet today's market challenges. Our presence in the rankings testifies to the fact that in recent years: we achieve a positive financial result, we maintain high current liquidity, we pay our obligations to our counterparties on time, we maintain a positive assessment of payment reliability, we have achieved **a cooperation risk factor higher than 4**.

More about us on website: [www.evention.pl](http://www.evention.pl).
