

COMMUNITY OF WOMEN
IN CYBERSECURITY

www.cyberwomen.eu

AT THE CYBER WOMEN COMMUNITY, WE INSPIRE AND SUPPORT WOMEN
TO START AND DEVELOP A CAREER IN CYBER SECURITY.

We are building an active community of women who are taking their first steps in cyber security and passionate women who want to develop and are not afraid to dream! We promote and empower women to discover their path in new technologies.

COMMUNITY**

club.cdoforum.pl

THE CDO FORUM CLUB IS A PLACE FOR DATA PROFESSIONALS TO EXCHANGE EXPERIENCES. THEY ARE THE INITIATORS OF A SERIOUS APPROACH TO THE SUBJECT OF DATA IN THEIR ORGANISATIONS. THEIR ROLE AND RESPONSIBILITIES ARE GROWING IN TIMES OF ACCELERATING DIGITAL TRANSFORMATION.

PARTICIPANT PROFILE

SPECIALIST ① ② ③ ④ ⑤ DECISION MAKER

A growing number of companies are creating dedicated data structures linked to business and technology departments. Business strategy is being linked to the data strategy. The task of the CDO FORUM CLUB is to integrate the community, build a platform for the exchange of knowledge, experience and networking among Chief Data Managers and other responsible people in large companies and institutions operating in Poland.

We offer a space that has been missing in Poland so far, which allows data managers to have professional discussions, build relationships and access to unique knowledge and experience.

A company specializing in creating business meetings. He treats business events as an integral and difficult to replace element of building relationships and improving the effectiveness of these relationships between companies, and in fact the people who create them. The team of people who make up the company has over 100 different projects and nearly 20 years of accumulated experience to its credit, with a very unique set of competences and experience gathered over the years of working on business meetings in the context of the market and the subject of IT and telecommunications. He has editorial and analytical competences and a wide network of network among the so-called decisionmakers and a lot of relationships built over the years in the ICT world.
